PROPOSAL FOR WELL ABANDONMENT - BOEING C-6 FACILITY, LOS ANGELES, CALIFORNIA (FILE NO. 100.315)

We have received and reviewed your proposal to abandon Owners Well No. 2 and Owners Well No. 3, located on the Boeing C-6 Facility in Los Angeles, dated April 15, 1998. The wells extend to a depth of 600 feet below ground surface. During meetings held on March 2, April 2, and May 4, 1998, BRC indicated that Owners Well No. 2 will remain in place pending completion of the ongoing groundwater investigation, and may be sampled, if required. Owners Well No. 3 will be abandoned without being sampled. BRC's contractors also stated that the wells will be replaced with two, properly constructed monitoring wells, if required.

Please submit a well abandonment workplan for our review and approval.

Comments: Jeff & Allan: Attached you will find one letter concerning the abandonment of the one deep water well in the ESA property area and a second letter regarding the abandonment of three (3) wells on the east side of the Auto Nation property. Each of the well abandonment processes will require a separate approved work plan. In the case of the ESA well, I expect a draft of the work plan from the contractor sometime this week. With respect to the Auto Nation site, RFP's have been forwarded to a number of contractors. We expect to award this contract later this week. I anticipate the receipt of a draft work plan for the abandonment of the three (3) wells in about two weeks.
